IN OUR COMPLETE CORSET SECTION, On Our Second Floor We Emphasize the Necessity of Correct Corseting of Misses and Girls

The Sheathlyne, Junior and College Girl H. & W. waists are the ideal garments for young girls and misses, whose figures require support without restriction. We invite mothers of growing girls to bring them here Saturday. The importance of the first corset, and the demand of a growing girl's figure should not be disregarded.

Model 406 is one of the most dependable styles for the college girl, cut low in bust and long over hip, lightly boned, making it a comfortable garment for summer wear and moulding the figure into graceful lines.

For misses who need the higher top, we have the Sheathlyne Junior Waist, which has the strap over the shoulder and medium long over hips, with two sets of garters, clasp or button front.

Cambric Waists for Girls from 2 to 14 years.

Jean Waists for Boys, ages 3 to 12 years
